Silikal flooring for kitchen

“Residence Meran 2000”, Hafiling/Italy

Expect more from your floor.

The "Residence" kitchen with coloured quartz flooring

The pretty mountain village of Hafling in South Tyrol above Merano has now gained an additional attraction: the newly-opened four-star "Residence Meran 2000" hotel is something very special. Besides modern wellness and fitness facilities, its guests can enjoy superb cuisine (with a wide range of dishes to choose from). Those who planned and built the hotel paid particular attention to perfect hygiene, and in the kitchen area they chose to use Silikal seamless flooring.

This modern floor coating has been applied over around 200 square metres, with a yellow coloured quartz floor throughout

the kitchen area and a green flakes covering in the neighbouring subsidiary and utility areas. This provided the perfect solution for ensuring full compliance with EU directives on the handling of sensitive foodstuffs. All of the floors are easy to keep perfectly clean. Coving prevents dirt from accumulating around edges and anti-skid surface grading ensures that employees can move around safely.
